

# mVHR

mobile virtual health record  
made accessible

# Remedy Systems

Remedy Systems designs and builds mobile product and platforms that lower the costs and improve the quality of healthcare.

# **mVHR Product**

The MVHR application provides physicians and patients with access to real-time Continuity of Care Document (CCD) including lab results, medications, immunizations and more.

Our target market are hospitals, interoperability and health IT vendors, EMRs and patients.

No Information

MCH	◆ 29.8	pg	27.0-33.0
-----	--------	----	-----------

# Accessibility

iOS accessibility features enable a visually impaired physician and patients to fully utilize all of the features of the mVHR application.

Custom hints and labels provides the control over what is being read out loud, and ensures that medical data is presented in a way that is audibly coherent and comprehensive.
